

Sonoma County

Promoting “Children-First” in Politics, Policies and Investments

Our Children, Our Future

Member Statement

**A member of Sonoma County Partnership for Children -
promoting "children-first" in politics, policies and investments.**

Our children in Sonoma County are in a crisis; far too many are falling through the cracks academically and many do not have their basic needs met.

Partnership for Children is a community movement working to achieve the social and policy changes necessary to place our children's needs at the forefront of every decision made by citizens, their governments and businesses.

**Please become a member of Partnership for Children,
and support our campaign!**

There is no cost to join,
but there's a huge benefit to our community when we put children first!
